

**CONFIDENTIAL***Equipment Board**OC-M-H-2 L8  
21 MAY 1974*MEMORANDUM FOR: SUBJECT : Antenna Working Group for  
Headquarters BuildingREFERENCES : A. DD/S-67-4926, dated 2 Oct 1967  
B. OC-M-68-213, dated 16 Apr 1968  
C. Minutes OC, Equipment Board Meeting  
3-74

1. During the 9 April OC Equipment Board meeting,  the board secretary was instructed to look into the "Antenna Committee" situation and report to the board the results of his investigation. He reported his findings at the 14 May meeting and explained the reason for the committee, the establishment of the Antenna Working Group, and how the group operates.

2. Since, the antenna working group operates informally and independent of any guidelines established by OC orders or notices the Equipment Board would like to receive assurance from  that appropriate steps, have been, or will be taken to assure periodic status reports relative to the antenna situation on the Headquarters building roof. Additionally, an appropriate informational data base, if not currently maintained, should be established for this activity.

Chairman, OC Equipment Board
